BLOOD DONATION CAMP

Theme: Pharmacist: Caring for You

A Public health initiative was taken by Krupanidhi College of Pharmacy academicians and budding Pharmacist to commemorate **World Pharmacist Day 2016**.

Blood donation camp was organized on 26 September 2016, at Krupanidhi College Pharmacy Block. The programme was conducted by NSS cell, in association with Rotary International, Bangalore Indiranagar and NIMHANS Blood bank, Department Transfusion Medicine, Bangalore.

Sensitization program was conducted on 24 September, 2016 in the seminar hall by Mrs. Lata Amashi, Chairman of Blood Donation, Rotary Bangalore Indiranagar, and all the queries regarding the blood donation were answered.

The inauguration ceremony was held in the seminar hall of Krupanidhi College of Pharmacy. The welcome speech was given by the students of 5h Pharm D. The lamp lighting was done by all the dignitaries (Mrs. Lata Amashi (Chairman of Blood Donation, Rotary Bangalore Indiranagar), Dr. Suvarna Kirloskar (Physician, NIMHANS, Department of Transfusion Medicine) & Mrs. Beena Tuysar (Social Worker, NIMHANS Blood bank, Department Transfusion Medicine), along with Dr. Karvekar (Director Academics), Dr. Raman Dang (Principal), Prof. PV Mallya (Director-CPPA) and Dr. Sonal Dubey (Vice Principal). All the present staff, dignitaries and students actively took part in taking the "Pharmacist's Qath. The inauguration ceremony ended with the thank you note from Mrs. Rajeswari, Associate Professor and NSS officer, KCP.

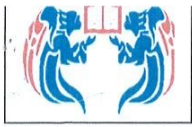

The blood donation camp commenced with our first donor Dr. Rajendra, HOD of Pharmacology followed by many other donors. About 82 donors donated their blood for the social cause on this special day. Both NIMHANS team and Krupanidhi College of Pharmacy-NSS cell provided refreshments and Certificates for the donors.

DIABETES SCREENING PROGRAMME@ Mullur Village

On World Diabetes Day, 14th NOVEMBER 2016

To commemorate the World Diabetes Day 2016, nine á Volunteers under National Service Scheme (NSS) program organized free Diabetes Screening Camp in Mullur under the guidance and coordination of the NSS Coordinator from Krupanidhi College of Pharmacy on 14 November 2016.

"Diabetes is a metabolic disorder of multiple causes characterized by chronic hyperglycaemia with disturbances of carbohydrate, fat and protein metabolism resulting from defects in the insulin secretion, insulin action, or both., According to Diabetes Atlas published by the International Diabetes Federation (IDF), there is an alarming rise in disease progression from 40 million in 2007 to 70 million by 2025 in India and every fifth person with diabetes will be an Indian. Nowadays the incidence is increasing in rural parts of India due to urbanization, obesity, unsatisfactory diet, sedentary life style. People living with type 2 DM are more vulnerable to both short and long-term complications, which often lead to their premature death. This vulnerability to increased morbidity and mortality is seen in patients with type 2 DM because of the commonness of this type of DM, its insidious onset and late recognition, especially in rural areas in India and resource-poor developing countries like Nigeria. Diabetes is a chronic morbid condition, which requires lifelong treatment. So the cost of anti-diabetic drug is the major deciding factor for the patient's compliance. Hence, patient's utilization of medicines, diet and lifestyle play a major role in controlling the blood sugar levels. One important aspect related to diabetes is to regularly monitor the blood glucose level in order to keep track of blood sugar level to avoid any complication later on and the camp tried to emphasize the importance of the same amongst the public.

The NSS volunteers, hence, conducted a house-to-house diabetes screening service for the public of Mullur (by checking their GRBS). The program started at 7 a.m. and continued till 2 p.m. The GRBS of interested population was checked and filled into a patient profile form along with their demographic details and last mealtime. Diabetes information leaflets were also handed over to the public and the ones with history of diabetes as well as the newly diagnosed and pre-diabetic populations were counselled regarding lifestyle modifications and food restrictions.

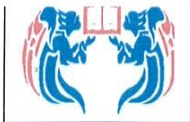

A total of 82 people took up the diabetes-screen in g test, out of which 15 of them were known cases of diabetes while 3 were newly diagnosed during the screening with having the Fasting Blood Glucose Level as high as 200-300 md/dL. They were counselled and referred to a physician immediately. From the remaining population, 27 were found be in pre-diabetic state with their GRBS value being >100mg/dl in fasting or >250mg/dl post prandial (more than 2 hours after food) Our volunteers counselled this population and convinced them to have a proper blood glucose test done (both fasting and PPBS) at least once in every 2-3 months.

It was a very productive day and we could get some insight into the level of understanding about diabetes and the need to have regular blood sugar level tested amongst the public. Given the findings, we understand that still majority of the public do not consider it important to have regular blood sugar test done even after 40 years of age, since majority of our participants were aged 40 or above. With the availability of easy blood glucose monitoring

devices in the market, it is important that the public is made aware about the need for regular blood glucose monitoring and the use of glucometer available in the market, if going to laboratories is not feasible for them. Our small attempt at generation of such awareness, hopefully, has been an eye opener for quite a few of the participants and that has motivated to move further in future for larger good.

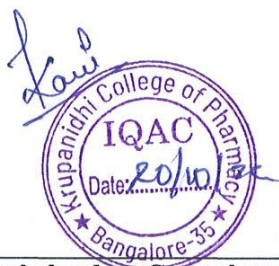

Coordinators for the day:

Faculty coordinators: Ms. Rajeswari, Dr. Rajendra & NSS team members

Student Co-ordinators: Kishore Kumar, Riju Pathak, Ujwal Teja, Abino Denny, Trushit Patel, Arjan Aryal and three students from B. Pharm

TUBERCULOSIS AWARENESS AND COUNSELLING-AT COX-TOWN

NSS Team of Krupanidhi college of Pharmacy has organized Tuberculosis Awareness and Counselling Programme at TB- DOTS centre in Cox town, Bangalore region in the month of November 2016.

The patients with pulmonary Tuberculosis were counselled on the importance of adhering to medications, without missing even single dose during the treatment period. Qualities of life of patients were measured, and patients were also counselled on their life style modifications required. Around 85 patients benefited from this programme.

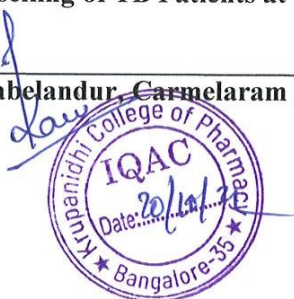

Though nobody is aware of the presence of TB, it still has many victims. In this sense, the awareness programme was a kind of revelation to all of us. The trainers talked about various misconceptions the public has on TB and had exhorted the volunteers about the need to have humane feelings towards the patients, and not to isolate them.

The aim of this program was to spread awareness about Tuberculosis. NSS volunteers learned about the Symptoms and treatment of TB to explain it further to people living in different areas. The NSS volunteers were explained about the symptoms of the TB, treatment for the TB, personal hygiene followed by the TB patients to the people. They have given counselling to the patients who are present in the DOTS centre of the Cox town, Bangalore.

AIDS/HIV Patient Counseling Competition & Guest lecture

On World AIDS Day - 1st December, 2016

To commemorate the World AIDS Day 2016, Volunteers under National Service Scheme (NSS) program, Krupanidhi College of Pharmacy, organized Patient counseling Competition for Pharm.D students at MVJ Medical College and Research Hospital. An invited lecture was arranged before starting the completion by Mrs. Rajeswari, Associate Professor, KCP.

The invited Guest Dr. Shakila from HIV/TB department, Public health, given of Karnataka delivered a talk on Importance of Patient Counseling in HIV/AIDS/TB patients. She explained the techniques of Pre-test & Post-test counseling with GATHER concept for the benefit of practicing students.

The competition was judged by Dr. Shakila & NSS team coordinator, and the well performed students were appreciated with Certificate from NSS Cell.

Tuberculosis awareness and counselling-at Varthur

NSS Team of Krupanidhi college of Pharmacy has organized Tuberculosis Awareness and Counselling Programme at TB- DOTS centre in Varthur, Bangalore region in the month of November 2016.

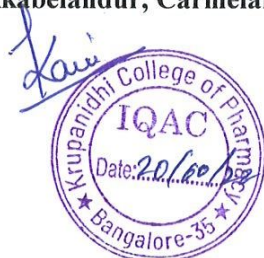

The patients with pulmonary Tuberculosis were counselled on the importance of adhering to medications, without missing even single dose during the treatment period. Qualities of life of patients were measured, and patients were also counselled on their life style modifications required. Around 85 patients benefited from this programme.

Though nobody is aware of the presence of TB, it still has many victims. In this sense, the awareness programme was a kind of revelation to all of us. The trainers talked about various misconceptions the public has on TB and had exhorted the volunteers about the need to have humane feelings towards the patients, and not to isolate them.

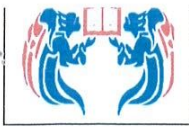

The aim of this program was to spread awareness about Tuberculosis. NSS volunteers learned about the Symptoms and treatment of TB to explain it further to people living in different areas. The NSS volunteers were explained about the symptoms of the TB, treatment for the TB, personal hygiene followed by the TB patients to the people. They have given counselling to the patients who are present in the DOTS centre of the Varthur, Bangalore.

Bone Marrow Registry awareness & Donor enrolment programme – 28th Dec 2016

Bone marrow registry awareness and donor enrolment programme was organised by NSS team, Krupanidhi College of Pharmacy, Bangalore, in association with "BMCDT- INFOSIS Foundation" on 28th December 2016. The students, faculty members and non-teaching staff actively participated and volunteered for the Bone marrow donation enrolment. 3 ml of blood was drawn from all eligible donors with their written consent for HLA testing. All enrolled members are given with Certificate for being Donor under Bangalore Medical College Development Trust- Infosys Foundation. The registry will be available for free for any needy marrow recipients. Commendable response was there for the programme with 179 registrations.

EYE CAMP AT MULLUR VILLAGE FEB 1st 2016

Eye Camp at Renuka Maheshwari Kalyanmantapa, Mullur Village, Bangalore

A free Eye Camp was organized by the NSS volunteers of KCP in collaboration with Globe Eye Foundation on 1st of February 2017.

The main objective of the event was to provide free eye check-up to all age groups along with the distribution of free spectacles to the needy. Eye screening and treatment was offered by the team from Globe Eye Foundation. The camp was further supported by Mr. Manjunath, Kodathi Panchayat, member of BJP party.

The flow of public started at 10 in the morning wherein they were first registered and then directed towards the screening room. Total of 195 patients were screened on that day, out of which 72 required new spectacles and were registered in a separate directory with full contact details for further communication at the time of spectacles distribution, the responsibility of which has been taken by Shri Manjunath. There were 29 cataract cases that required surgery. On 4th February 2017, The Globe Eye Foundation sent their vehicle to pick 11 (out of 29) patients to facilitate their transport up to the hospital in Hoskote where the surgery took place. The patients were returned back to the village on Sunday. The remaining patients were taken to Hoskote on 7th February 2017, arrangements for which are being made.

All in all, it was a very hectic but satisfying day for the NSS volunteers as well as the Doctors and nurses who voluntarily worked with the KCP team. Lunch was arranged for all the volunteers under the sponsorship of Sri Manjunath M. (Member, Kodathi Panchayat).

The valedictory function was held from 2.30 p.m. to 3.30 p.m. The main objective of the ceremony was to felicitate the sponsors and all the supporters for their contribution into making the program a success. As a token of appreciation, the Kodathi Panchayat team also felicitated the NSS officer from Krupanidhi College of Pharmacy for the service given to the village population.

PERSONAL HYGIENE EDUCATION IN MULLUR- PRIMARY SCHOOL

Krupanidhi College of Pharmacy (KCP) organised a **PERSONAL HYGIENE EDUCATION PROGRAM** for the children in **Government Primary School, Mullur** in collaboration with **RGUHS NSS cell** from KCP.

The objective of the event was to educate the children on the importance of maintaining personal hygiene a way in which they can stay clean and healthy.

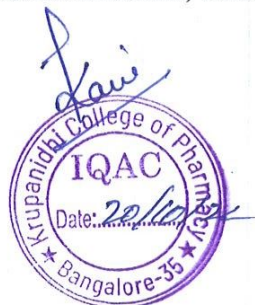

A Talk was delivered on personal hygiene by Dr. Rajendra, Head of the Department of Pharmacology, Krupanidhi College of Pharmacy where in, he explained the process of hand washing, nail clipping brushing and so on. The kids were also shown videos on the same for a more clearly understanding. The NSS team also distributed free soaps to the children.

In order to further motivate the children towards the day's topic, a drawing competition was held on the theme 'Personal Hygiene', each of them was given a drawing sheet to put down their imagination onto paper. Their art work was later evaluated and the best three drawings from each class were rewarded. All the kids were appreciated with sweets.

The primary school Principal, faculty members, Local Public appreciated the NSS faculty and Volunteers team for organizing a great event for the kids.

**IMMUNISATION AWARENESS PROGRAMME AND COUNSELLING AT
MULLUR ON 3RD FEBRUARY 2017**

The volunteers for the NSS, KCP were involved in an awareness raising program on child vaccination to the public at Mullur village on 3 February 2017.

Vaccines are one of the most successful health interventions that bring about significant reduction in infectious diseases and improve quality of life in the population. Infant mortality rate (IMR), which is considered as one of the most sensitive indicators of health status of a community, is very high (44%) in India and the two important causes are inadequate breastfeeding and immunization. Despite a decline in urban-rural differences over time, children residing in rural areas remain disadvantaged. The NFHS-3 survey reported that 57.6% of urban infants were fully vaccinated compared to 38.6% in rural areas. Parental knowledge, attitude and practice regarding immunization play important role in making decisions on vaccination of their children as well as for increasing the immunization rate and compliance. The NSS volunteers, hence, conducted a survey to assess the completeness of immunization amongst the village children. The parents were also educated about the importance of vaccination, verbally as well as with the help of information leaflets.

The NSS volunteers visited the households in the village, enquiring about families with child less than five years of age. The parents with child under 5 years of age were enrolled into the survey. The volunteers checked the immunization cards of the children (as and when available) to ensure completeness of immunization of the child as per schedule. All the parents were verbally informed on the importance of immunization and its various aspects and were also given leaflets advocating the importance of child vaccination and the diseases against which government provides free vaccines to the children.

A total of 50 parents were enrolled into the survey, out of which 36 parents had completely vaccinated their children as per the national immunization schedule (based on the age of the child). 6 parents stated that they had given all the required vaccines to their children but failed to produce the immunization card, hence, the reliability of the information could not be ensured and remaining 8 parents had not completed the immunization as per the schedule. The most missed vaccine was the booster dose of DPT (Diphtheria, Pertussis, Tetanus).

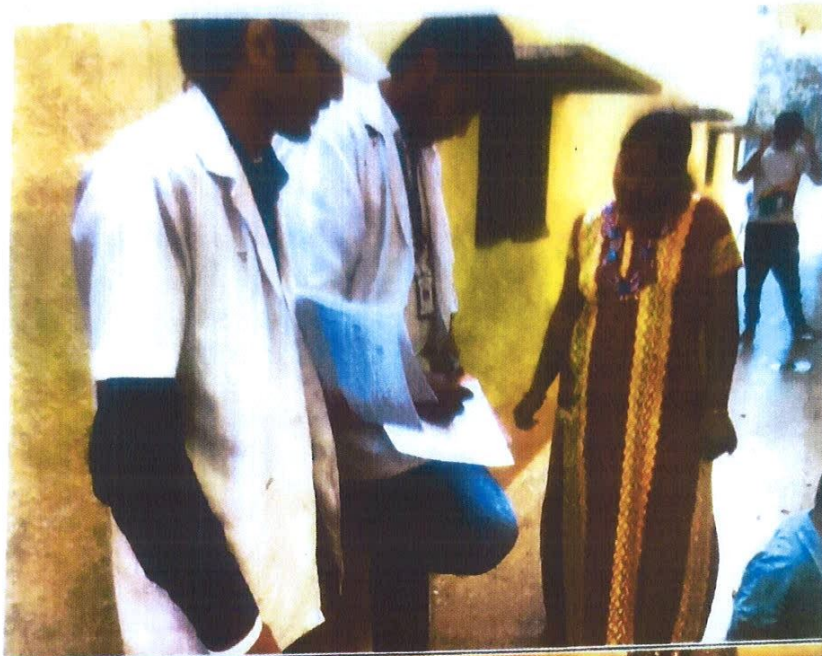

It was noted that further initiatives are required for efficient spread of awareness in public about the importance of child vaccination and motivate its practice amongst parents who have abstained from it.

Sapling Plantation at Government Bangalore. Primary School, Mullur Village,

On 4 February 2017, the NSS volunteers organized a plantation program in the grounds of Government Primary School, Mullur. The saplings were Krupanidhi College of Pharmacy provided free of cost by Mr. Narendra, Campus Registrar, Krupanidhi college of Pharmacy.

The main aim of the program was to motivate to maintain their plants to have surroundings green and plant greener environment in future.

Total of 55 saplings were planted along the circumference of the school were also ground by the NSS team and joined in by the principal Dr. Raman Dang and Vice-Principal, Dr. Sonal Dubey. The responsibility for regular watering of the plants were given to the students from each class in an organized manner as suggested by the head mistress of the school and the NSS regular follow up will be done by team who also donated two buckets to the school to facilitate the work.
