plan is effectively deployed*

Strategic plan

KRUPANIDHI COLLEGE OF PHARMACY

KCP Strategic Plan

Note from Chairman for Strategic Planning

We at Krupanidhi have a vision: "Our vision is to aspire to become a leading global institute for learning, innovation, research and discourse. We envision entrepreneurship as the central stratagem to best serve the nation in general and the world at large"

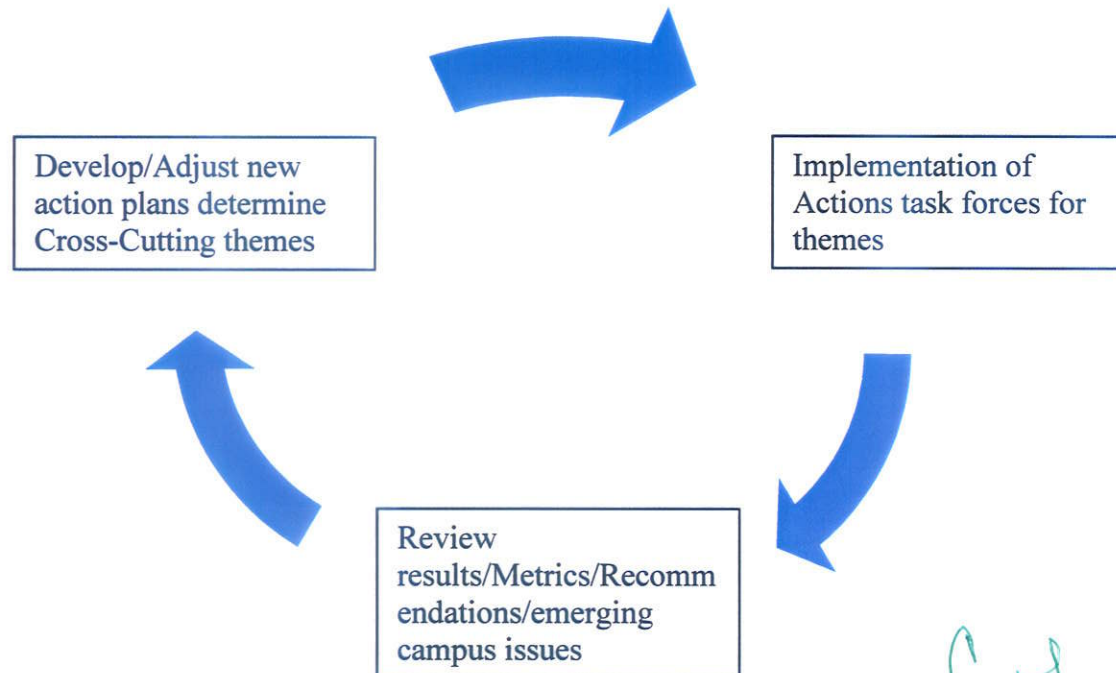

“We don’t just polish stones, we carve them”. Higher education is the touchstone by which the progress of a nation is measured in today’s times. As the country stands poised on the brink of an exciting future, higher education is as important as administrative policy. Today, the society, the academia and the industry need to stand together and share their commitment, enthusiasm and expertise in order to create a responsible, progressive and skilled citizenry. In keeping with this very spirit, Krupanidhi has been focusing on providing all-round, relevant and comprehensive education to students for the last three decades in an environment that impresses upon ethics, values and mutual respect.

Whenever I am asked to define education, the following quote always comes to my mind “The whole purpose of education is to turn mirrors into windows”. Education is the fountainhead of growth, progress and development in any part of the world. Its contribution has been responsible for upliftment of the society, in shaping the moral fiber of the student community and contributing to the nation’s well-being by producing the bright minds of tomorrow. We at the Krupanidhi have structured an effective and holistic education system in a way that prepares the students to be an effective and efficient workforce and make the best use of the opportunities that the industry sends their way. The curricula of the various colleges under the Krupanidhi Trust are designed to keep pace with the ever evolving and dynamic trends and challenges of the industry today.

Central Strategic committee plan (2017-2023)

1. Massification of systems and greater access to opportunities

Access to education must be guaranteed to all sectors of society. In particular, it must support low-income populations, minority groups and disabled students with specific financial programs, such as grants or scholarships, without discrediting selection and entry processes. It must continue to promote gender equity, guaranteeing women's access to higher education and supporting their integration in male-dominated fields,

2. Quality assurance of products and services

Establishment of Quality Assurance Systems to evaluate results (not just input) and allow for self-regulation with a critical and objective view through the use of second-generation indicators. Quality assurance must cover all institutional products and services areas, as well as transnational service systems such as in the case of virtual or online education. Support shared knowledge initiatives that strengthen the ability to put quality assurance systems in place and launch programs of specific activities to perform evaluations in every substantive activity of krupanidhi group of institutions.

3. Foster new research programs that encourage countries' development and new innovation practices

Reinforce a systemic vision of education that includes collaborative work among research departments and teaching areas. In particular, organization must strengthen educational offerings at the postgraduate level. Create programs that deal with social and market needs and provide students with the skills demanded by today's society and economy. Institutions must adopt and develop an institutional culture that supports medium- and long-term planning, innovation and entrepreneurship.

Varthur Hobli, Bangalore - 560 035

4. Encourage growth and use of Information and Communications Technologies (ICT) to increase educational offerings, improve research and learning quality, and develop new communication networks with other universities/institutions etc.,

Although there are no clear definitions on the certification of knowledge on the internet, it is important to move forward in the creation of quality names in virtual education systems and define strategies to face phenomena like Massive Open Online Courses (MOOC/SWAYAM). Expand the creation of associations that are pro digital solidarity, or what is known as “e-Twinning”, sponsor projects, and make better use of computer equipment.

5. Develop an internationalization strategy in line with new realities that will enable to:

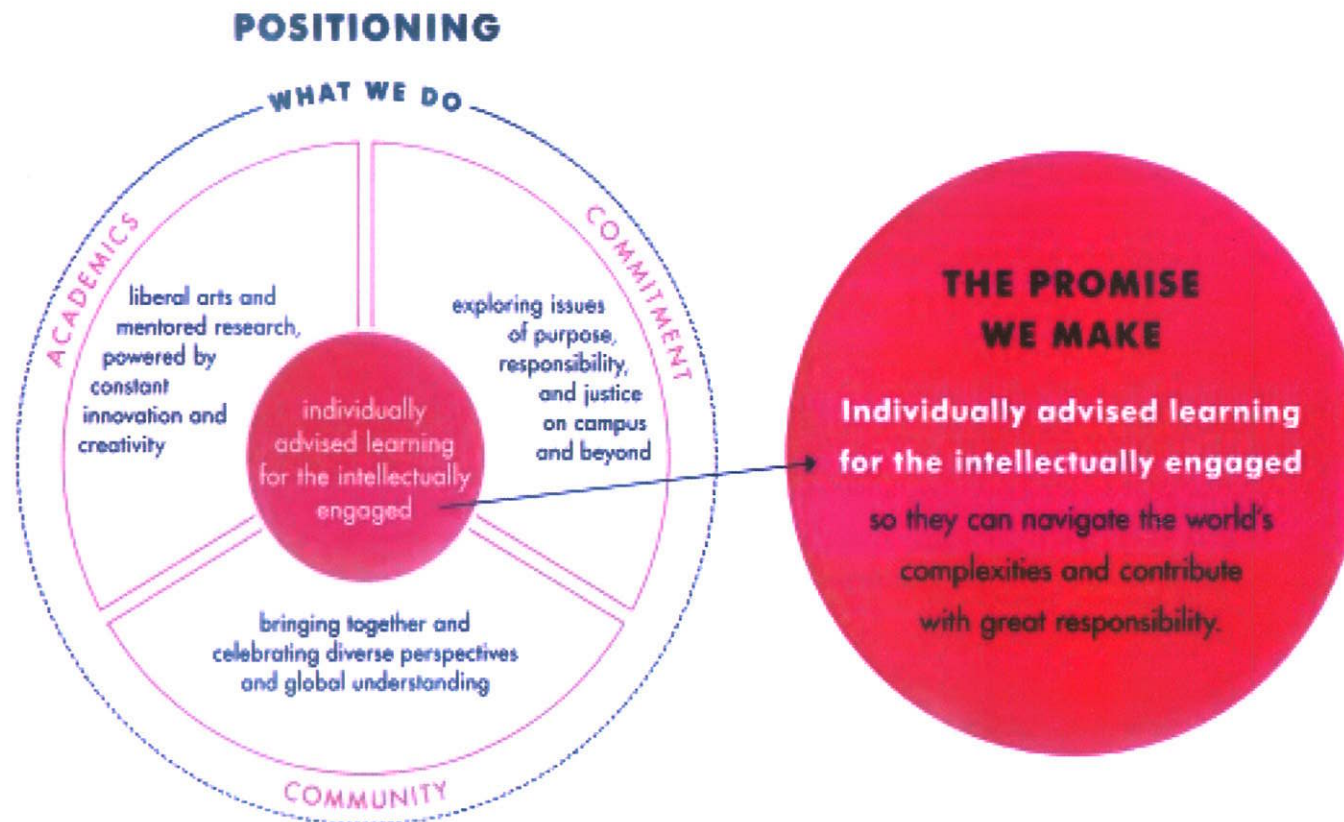

Transform the curriculum so as to develop global citizens and professionals capable of working not only in the local/national context but also in the international context. Foster the presence of a critical mass of first-rate students and professors from different parts of the world (academic and student mobility), and limit academic inbreeding. This attracts more talent and makes room for new ideas and perspectives.

KCP's Strategic Work

PRINCIPAL
Krupanidhi College of Pharmacy
Chikkabellandur, Carmelaram Post,
Varthur Hobli, Bangalore - 560 035

Major Directions

Strategy 1: Enrollment — Attract, enrich, and graduate a diverse and talented student community. Create a student body that individually and collectively reaches a remarkable record of achievement and that maximizes the interactive learning opportunities for all KCP students. Co-leads: Director KCP; Principal for enrolment and principal/ head of admission and financial aid.

Strategy 2: Teaching and Learning — Re-envision KCP's commitment to a liberal education and its value in the twenty-first century. Create an innovative and evolving student centred, value added courses/certification courses (academic experience) that enables students to be successful in an ever-changing world and informs and enriches the lives of KCP graduates. Co-leads: Academic Director and Principal for academic affairs and Principal, professor chair of the faculty.

Strategy 3: The KCP Learning Place — Create learning spaces that encourage collaboration, community, creativity, and inquiry. Design, operate, and support environments on and off campus to enhance the academic, social, and environmental success of the KCP College community. Co-leads: Committee Coordinators in coordination with Director KCP.

Strategy 4: Postgraduate Success — Instill an orientation to the future and intentionally connect the KCP educational experience to post-graduate endeavors. Create a curriculum and learning environment that enables, prepares, and encourages students to lead meaningful and purposeful life paths and careers. Director KCP, Principal KCP in coordination with Placement officer, Centre for Careers, Life, and Service.

Strategy 5: Alumni Engagement and Philanthropy — Forge and deepen a life-long connection between alumni of all ages with KCP College. Foster the beginnings of an alumni culture based upon civility, respect and a commitment to doing what is necessary to preserve the essence of a KCP College education for future KCPians. Co-leads: President Alumini Association KCP in coordination with principal and faculty of KCP, for development and alumni relations.

Strategy 6: The Management of KCP's Infrastructure Resources — Transform administrative practices to maintain continuous, collaborative, and adaptive planning for the College. Create a fiscally sustainable business model that supports the College's mission and maintains stability through variations in revenue sources and expenditure patterns. Co-leads: Executive Director and Director.
