REPORT

Date: 03/10/19

Venue: Seminar Hall, KCP

Debate is a social way of expression your point of view on a topic. And it teaches students how to accept different point of views of theirs and others in the same topic. They learn agree to disagree, may find a way to solve an issue, learn how to compromise with others. Debates have historically occurred in public meetings, academic institutions, debate halls, coffeehouses, competitions, and legislative assemblies. Debate has also been conducted for educational and recreational purposes, usually associated with educational establishments and debating societies. These debates put an emphasis upon logical consistency, factual accuracy, and emotional appeal to an audience. Modern forms of competitive debate also include rules for participants to discuss and decide upon the framework of the debate.

This year the Debate Competition was held at Seminar Hall, Krupanidhi College of Pharmacy. All the participants were extraordinarily skilled. One could actually see the future leaders in the contestants. The decisions of the judges were final. There were no foul plays. All the participants were students with equal caliber and potential but in the end, some stood out shining brighter than the others. The prizes were given away by the honorable director Sir, who talked about a few memories from his college days.
